2010 FACTS AND FIGURES

A tradition of caring for the community since 1862

Renown Health is Renoõs only locally owned, not-for-proþt health network with a proud heritage of serving the community. Renown Health provides more services than all other local healthcare networks combined, including three ER's.

Renown Health is comprised of three acute care hospitals plus a rehabilitation hospital, skilled nursing facility, a medical group with 16 locations and the region's most trusted health insurance provider, Hometown Health.

Based in Reno, Nevada, Renown Health continues to be the regional leader, serving a 17-county region comprised of northern Nevada, Lake Tahoe and northeast California with a total population in excess of 850,000.

Renown Firsts:

From the region's only accredited **Level II Trauma Center** to the only **Tomotherapy Hi-Art Treatment System** in northern Nevada, Renown Health has the skill, expertise and technology usually found in much larger communities. It's no surprise why area doctors prefer Renown Health for technology by a margin of eight to one (as reported by Gallup, a third-party survey company, in the 2009 Physician Engagement Survey).

Skill, Expertise and Technology:

Renown carries a tradition of being the þrst in the region to successfully perform the most advanced procedures as well as successfully establish itself as a world-class center for quality care. Some of those þrsts and onlys are highlighted throughout this document in purple.

Renown Health Major Medical Programs and Specialties:

Institute for Heart & Vascular Health

Experience is critical when it comes to heart care. As the region's leader in cardiac care for more than 30 years, Renown Health was the þrst in the area to perform **mitral valve heart repair using da Vinci Surgery, cardiac catheterizations, open-heart surgery, angioplasty, valve replacement, coronary stent replacement, coronary laser ablation system, hospital-based vascular screenings** and more.

Institute for Neurosciences

Northern Nevadaõs þrst and only **Institute for Neurosciences** features the Stroke Center along with Epilepsy, Multiple Sclerosis, Muscular Dystrophy, Neurosurgery and Interventional Neuroradiology services. Firsts include **Certiþed Primary Stroke Center** and **accredited Epilepsy laboratory.**

Institute for Cancer

Renown Institute for Cancer is the only program to be recognized by the **American College of Surgeons Commission on Cancer for comprehensive cancer care** in the region for more than 23 years. Only 25 percent of hospitals nationwide meet the Commission's rigorous standards. Renown Health is one of a handful of hospitals in the western U.S. that specializes in treating **gynecologic cancers** and is the largest hospital in the area conducting clinical trials with the National Cancer Institute. Renown Institute for Cancer also introduced the regionõs þrst and only **Tomotherapy Hi-Art Treatment System**, which has virtually no limitations on the shape, size, type and location of tumors it can treat, as well as the only **da Vinci Surgical System** in the west offering surgical applications in every specialty.

X-Ray & Imaging

With 9 imaging locations, Renown Health is the region's leading provider of diagnostic imaging with the þrst **dedicated PET/CT scanner** in the region, northern Nevada's only **Bi-plane Angiography** to stop a stroke in its tracks and the þrst **true 64-slice CT scanner**.

Orthopedic Services

Board-certiþed orthopedic surgeons work collaboratively with certiþed nurses, anesthesiologists and therapists to develop individualized care plans to best meet patients' needs. Orthopedic services include advanced surgical and non-surgical approaches to a variety of conditions, including trauma and sports injuries, spine surgery and total joint replacement.

Renown Children's Hospital

Our commitment to the next generation begins from day one, with two-thirds of all Reno area births occurring at Renown. The hospital has the only **Children's ER**, **pediatric ICU** and largest NICU in the area. Renown is home to the region's only **Pediatric Specialty Care**, treating patients with tumors, cancer, blood disease and other major illnesses.

Our Purpose:

"Make a genuine difference for the many lives we touch by optimizing our patients' healthcare experience."

The Numbers Say it All:

946	Licensed Beds
1,013	Physicians with privileges (as of January '10)
4,111	Delivered (babies)
