Renown Home Care
Your Care Team Works with Your Doctor to Keep You Active

Medical Director
• Consults with our staff and the patient’s doctor to coordinate your care.

Registered Nurse
• Provides one-on-one care for patients in the comfort of their home.
• Provides outpatient assessment, creates and implements a comprehensive recovery plan, reports progress to the patient’s doctor and provides patient education.

Licensed Practical Nurse
• Provides direct care while assisting other clinical staff in collecting data relevant to your condition and helps to implement a care plan for recovery.

Certified Nursing Assistant
• Works directly with a registered nurse to provide personal care that helps the patient recover.

Physical Therapist
• Develops an individualized therapy plan focused on rebuilding strength and mobility.

Occupational Therapist
• Helps restore safe independence in activities of daily living, such as eating, dressing and bathing.

Speech and Language Therapist
• Creates and implements care plans to help restore the patient’s speech and cognitive functions.

Registered Dietician
• Provides professional nutritional assessments and education to help patient recovery.

Social Worker
• Assists with identifying and linking patients and their families with appropriate community resources and services.

Clinical Intake Coordinator
• Knowledgeable in Medicare guidelines and other insurance authorization requirements.
