

2016 Facts and Figures

About Renown Health

Renown Health is a locally owned, not-for-profit integrated health network and Accountable Care Organization. Being not-for-profit means that all of our income stays here — to improve the care and services for our community. We bring together healthcare providers, programs and services to seamlessly coordinate the healthcare needs of the community. We serve a 17-county region that includes northern Nevada, Lake Tahoe and northeast California. Today, meeting the healthcare needs of the community means much more than simply providing care within our facilities — we are taking our focus on health and well-being out into the communities we serve.

Proudly Not-For-Profit

As Reno's only locally owned, not-for-profit health network, all of our earnings stay right here and are reinvested in programs, people and equipment to better serve our communities. Local citizens play a pivotal role in how those dollars are spent. More than **140** community members serve on Renown boards or in advisory capacities.

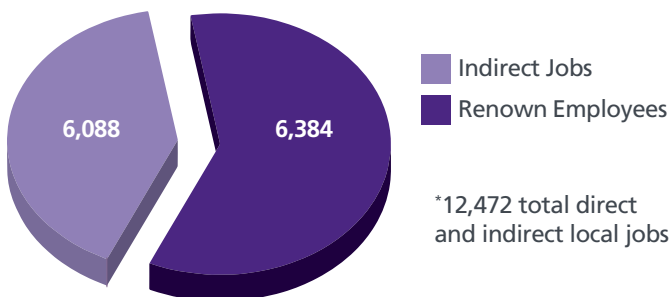

Community Benefit

We're thinking outside of our four walls to make an impact on the health of our communities. In just one year, we spent more than **\$78 million¹** for research, community initiatives, education and non-reimbursed health services. We contribute to more than 80 local not-for-profit organizations each year and invest approximately **\$63.7 million¹** annually on capital improvements — such as buildings, equipment and technology — to better serve our community.

Economic Impact

Overall, our total economic impact is projected to be **\$1.867 billion²**, and we are responsible for **12,406** direct and indirect jobs.

Economic Impact: Through Jobs*

¹Based on Fiscal Year 2016.

²Calculated through State-provided impact multiplier.

Transitional Care Services

To ease the transition from hospital to home, Renown offers a range of services including:

- Renown Rehabilitation Hospital
- Physical, Occupational Health Services and Speech Therapies
- Wound Care Services
- Home Health
- Skilled Nursing
- Hospice and Palliative Care
- Monaco Ridge Assisted Living

Region's Leader in Heart Health & Cancer Treatment

Institute for Heart & Vascular Health

Renown Institute for Heart & Vascular Health is your destination for any serious heart problem. With top Reno cardiologists, you have the most advanced heart and vascular care center right here in your own backyard. Our rapid heart-saving procedures, including our record setting arrival-to-treatment times are among the best in the nation.

We have been the region's hub for heart care for decades including performing the first open-heart surgery, angioplasty, and stent and valve replacements. Today, we continue to lead the way in heart care with treatment options that aren't available anywhere else in the region.

Institute for Cancer

At Renown Institute for Cancer you can count on the region's most personalized approach to care, all in one convenient location. Our treatment options range from chemotherapy and radiation to surgery and clinical trials, all tailored to your treatment plan.

Having the most advanced treatment, clinical expertise and a multidisciplinary approach to your care ensures you have the support needed to navigate the complexities of cancer. With specialty doctors, nurses, dietitians and other clinicians working together for coordinated care, you can ensure you get the very best treatment close to home.
