

At A Glance: Premier Care

Premier Care is

a program designed to meet all of a patient's healthcare needs both primary and hospital-based

"I believe medical care is a collaborative effort between

doctor and patient.

My role as a physician is to empower and educate my patients and help them to make informed decisions about their health and well being."

– Bryan Young, MD,
Premier Care Doctor

Premier Care is an

enhanced primary care

program focused on enhancing members' healthcare experience through continuous communication and access to their personal doctor

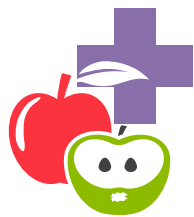

Expanded access

to your doctor
and care team

Custom made

healthcare
for YOU

We focus on keeping you healthy

and out of the
hospital rather than
treating illness after
the onset

Same or next day

appointments and
extended face-to-
face time with
your doctor

Online communication directly

with your doctor,
including weekends

Smaller

low-volume
patient practice

If you are hospitalized,

your Premier Care doctor will work directly with hospitalists, who specialize in managing patient care in the hospital, to ensure you get 24 hour coordinated care
